## A COTTON PANIC.

WASHINGTON COTTON REPORT. the same as those of last November. The day and then married the teacher. Tennessee .31; Texas, .33.

this engagement an interesting story is told. Part of it has long been an unwritten college tradition.

Miss Braislin was one of Vassar's pilwere only two who had been continuously in the college since its founda-Maria in 1865. One was Professor a Republican of the most pronounced Maria Mitchell, whom everybody type. knows, and the other Professor Braislin. There have been presidents and presidents, and teachers and teachers at the college, but these two women were what the girls sometimes called "perfect fixtures." Professor Braislin would be remembered by any one who ever had the Try them. pleasure of seeing her. One could not casily forget her very fresh complexion, her remarkable hair, so full, so wavy, and a year.

almost white. She is somewhat above the medium height, not thin nor oldish. looking and yet a little motherly withal, and peculiarly graceful in carriage. Spot Cotton Fractions and Futures But it is in conversation one sees her at her best. As she speaks her face lights up so that at times she appears really handsome. She was a favorite with all, from the oldest trustee to the latest student. When any of the alumn æ came back to visit their old haunts at Poughkeepsie, one of the first things they would do was to call upon her. She was the personification of Alma Mater.

But she is going to be married. One of NEW YORK, Nov. 10 -Railway bonds the many traditions given to the girls in Braislin and a love affair. The story is that when she went to and Deliver at 49; rios at 66; St. Poughkeepsie to be first assist-Arkansas and Texas 1's at 972, ant in the chemical and physical laboratory she either was then, or had been, engaged to be married. But something happened and her wedding-day never came. It used to be told that her betrothed met some one else in time and got married and had children and became very rich. Meanwhile Miss Braislin remained at her collegiate work unmoved by suiters. She plunged vigorously into NEW YORK, Nov. 10.—The stock market her duties and in 1875 became professor New 102 Mar was weak almost all day long, and of mathematics. There is a distinction orices to-night show losses in all the acprices to high The opening was fairly professors and the mere teachers. The former have votes about college pess during the first hour. There was matters and the latter do not. Miss active trading. Prices were well held untoward 11 o'clock, when the resist- who had voice and vote at faculty meetspec was removed, and on a dull and un- ings. She made her course of study as interesting market prices sagged off slow- near perfect as any one could. Her aty, the fluctuations being confined to the tainments in personal research were smallest limits, and dealings were entire- noteworthy and gave her a high place devoid of a feature of any kind. In among her profession. And the way she the last hour the decline made more interested the girls in calculus and quarprogress, and the close, though dull, was terniosu was "just marverous," as they

CHICAGO, ILL., Nov. 10 .- Markets on 'Change

to day were even lower than yesterday. There was more firmness in provision than in other markets. Wheat pit trading was light and generally quite dull; scarcely any business was done on outside ac ount; local traders, too, were out of the market. In the cash market there was modera e call, but chiefly for carrying purposes; receipts continued large, with clearances light; December wheat opened %c lower at 73% @78%c, sold to 73%c, and closed at 73%; corn was somewnat firmer and more sct-ive to day; a better local demand prevailed shippers being the chief buyers; the firmness was due mainly to a demand for cash corn and reports that corn was husking out badly in some sections of illicois; the market opened at yesterna is closing figures, became firm ad vanced %c for November and %@%c for other futures, ruled steady and closed with November 2c higher at 42%c and May 20%c higher at 45%c. Provisions were active and de idedly a stronger feeling was developed. Local operators were more inclined to buy, and outside parties were largely on the buying side.

January and May deliveries attracted the most attention. Prices ruled higher on all leading articles and outside prices were fully sustained.
